

Enter your seed details on the seed bank record sheets.  
Tally your total credits and/or debits for the day in the total column.

For example:

Date	Member's name	Variety of seed	Amount taken (tsp/tbsp/pkt)	Debit/s	Total debits
14/6/2015	John Smith	Broadbean aquadulce	3 tbsp	3	5
"	"	Mustard red	1 tsp	1	
"	"	Lettuce, freckles	1 tsp	1	
14 June '15	Freda Jones	Snowpeas	2 tbsp	2	3
"	"	Daikon radish	1 tsp	1	
14/6/15	Alys Fowler	Marigolds	1 tsp	1	1

- John Smith would enter 5 debits for the 14<sup>th</sup> of June
- Freda Jones would enter 3 debits for 14 June
- And Alys Fowler would enter one debit for 14 June

## Using your 'credit card'

Record the date, total credits added and used and your resulting balance on the card.

**Karen Retra**  
seed credits at June 2015: 57

Date	credits added	credits used	balance
14 JUN '15	4	6	55

**Gathering date** → 14 JUN '15

Your **total credits earned or added today** (by depositing seed into the seed bank) → 4

Your **total credits 'used' today** (by taking seed from the seed bank) → 6

Your **balance** = existing credits + added credits - used credits  
Here,  $57 + 4 - 6 = 55$
