Setting up your ‘credit card’

Add the following information and headings to your card

- Your name
- Your current seed credits
  (there’s a list for existing members, and new members gain 15 credits on joining)
- Headings for your entries: date, credits added, credits used and balance.
Enter your seed details on the seed bank record sheets.
Tally your total credits and/or debits for the day in the total column.

For example:

<table>
<thead>
<tr>
<th>Date</th>
<th>Member's name</th>
<th>Variety of seed</th>
<th>Amount taken (tsp/tbsp/pkt)</th>
<th>Debit/s</th>
<th>Total debits</th>
</tr>
</thead>
<tbody>
<tr>
<td>14/6/2015</td>
<td>John Smith</td>
<td>Broadbean aquadulce</td>
<td>3 tsp</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Mustard red</td>
<td>1 tsp</td>
<td>1</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Lettuce, freckles</td>
<td>1 tsp</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>14 June '15</td>
<td>Freda Jones</td>
<td>Snowpeas</td>
<td>2 tbsp</td>
<td>2</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Daikon radish</td>
<td>1 tsp</td>
<td>1</td>
<td>3</td>
</tr>
<tr>
<td>14/6/15</td>
<td>Alys Fowler</td>
<td>Marigolds</td>
<td>1 tsp</td>
<td>1</td>
<td>1</td>
</tr>
</tbody>
</table>

- John Smith would enter 5 debits for the 14th of June
- Freda Jones would enter 3 debits for 14 June
- And Alys Fowler would enter one debit for 14 June

**Using your ‘credit card’**

Record the date, total credits added and used and your resulting balance on the card.

Gathering date

Your **total credits earnt or added today** (by depositing seed into the seed bank)

Your **total credits ‘used’ today** (by taking seed from the seed bank)

Your **balance** = existing credits + added credits - used credits

Here, 57 + 4 – 6 = 55
